Summary of Legislation

The bill repeals the requirement that males between the ages of 17 and 26 register for Selective Service in order to enroll at a state-supported institution of higher education (IHE).

State Expenditures

Currently, IHEs are required to distribute forms to prospective students to verify their registration or exemption from the requirement, and if a student falsifies their registration or exemption, the institution is required to suspend the student. The bill will increase workload in FY 2023-24 in order for institutions to update their procedures, and may decrease workload to collect and verify these forms in FY 2023-24 and ongoing. Changes in workload are assumed to be minimal.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
